

Let's all Care For Kids

Ultimately, your child's safety is in your hands.

Small Parts

Please check age recommendations on your toys carefully. Toys labelled "Not intended for use by children under 3 years of age" may contain small parts which could prove injurious if swallowed.

Be Aware

Sometimes you may need to supervise to ensure that toys are not used in ways for which they were not intended. When you choose a toy for an older child, think about how safe it would be for a younger child who may have access to it.

Plastic Bags

Please dispose of plastic bags immediately to avoid danger of suffocation to small children. Shred or tie in knots before placing into rubbish bin. Do not burn!

Paints

Paints should, of course, be non-toxic. Jigsaw products conform to ASA1647 Part 3 - Toxicological Requirements.
